TRACK 2: COMMERCIAL SMART
FACILITY & SUSTAINABILITY
MANAGER

From Sensor Signal to Resolved Incident

Continuous Leak Example

One Platform. Complete Facility Visibility.

AI interprets application evidence — it does not invent operational facts.

Closing the Loop

OUTCOMES

**Operational
Intelligence**

**Water
Conservation**

**Predictive
Maintenance**

**Sustainability
Visibility**

**Connecting facility telemetry, maintenance action,
human resolution and sustainability impact **in one
reusable workflow.****

Prototype uses synthetic/local simulation estimates; values are not real facility measurements.
